STANDARD FRAME

WHITE CAPPED COMPOSITE
(No paint required)

This ready to use finished white frame provides a long-lasting finish. The closed cellular structure ensures the door frame will not absorb or wick moisture, and prevent warping, rotting and splitting.

COMPOSITE FRAME SYSTEM

Closed cellular structure ensures doorframe and molding will not absorb moisture and resists splitting, rotting and insect damage

WOOD FRAME SYSTEM

Traditional wood frame systems are prone to rotting, swelling, warping and insect damage.

UPGRADE FRAMES

SMOOTH COMPOSITE
(Paintable)

A smooth paint ready frame. The closed cellular structure ensures the door frame will not absorb or wick moisture, and prevent warping, rotting and splitting.

OAK GRAINED COMPOSITE
(Paintable & Stainable)

Oak grain poly-fiber door frame system that combines all the strength and convenience of wood with enhanced properties that make it moisture, rot and insect resistant

FIR GRAINED COMPOSITE
(Paintable & Stainable)

Oak grain poly-fiber door frame system that combines all the strength and convenience of wood with enhanced properties that make it moisture, rot and insect resistant

MAHOGANY GRAINED COMPOSITE
(Paintable & Stainable)

Oak grain poly-fiber door frame system that combines all the strength and convenience of wood with enhanced properties that make it moisture, rot and insect resistant

Smooth Composite frame paintable only. Oak, Fir, Mahogany grained frame are paintable or stainable. All upgrade frames are available in a factory applied finish at an additional cost. If these frame are purchased without a factory finish, it is recommended that a finish be applied immediately upon receipt of the product.

THE PERFECT COLOR

STANDARD PAINT COLORS

Fixed Exterior grills are recommended when painting doors. Grills can then be painted to match the door.

THE PERFECT STAIN

Woodgrain Textures

STANDARD STAINS

Paint and Stain colors are computer generated digital images. Actual color may vary.
